

## JAP'S VICTORIOUS Beds

Russians under Kuropatkin are severely defeated

## THE BATTLE CONTINUES

Russians retire in disorder. Great loss of life on both sides.

## GEN. OKU'S SUCCESS.

Tokio, October 14.—The latest from the front indicates a Japanese success. General Oku's left army alone bagged twenty-five guns.

The Russians made two desperate counter attacks against the Japanese left, but were repulsed with heavy loss.

The Japanese commander, in their report give expression to their admiration of the valor of the Russians. The Manchurian headquarters telegram sent to-day reports as follows: "As in the last report, the right army has been continuing a vigorous pursuit of the enemy towards the north."

## PORT ARTHUR SHORT OF COAL.

Tientsin, October 13.—The correspondent of the Associated Press learns on most reliable authority that a high Russian officer, who was sent through Tientsin yesterday on his way to Shingai, is making false offers to shippers to take cargoes to Port Arthur, and that this officer has admitted that the shortage of supplies there is alarming, and especially those of coal.

## RUSSIANS IN DISORDER

Mukden, October 15.—At 3:30 o'clock yesterday afternoon the fight was still in progress with terrible bitterness and the result yet hangs in the balance. The losses on both sides are enormous. The Russians have fifteen thousand wounded, hundreds of whom are streaming back from all directions.

## JAPS WIN A GREAT VICTORY.

London, October 15.—A despatch to a news agency from Mukden timed 2 p. m. to-day and received by way of Paris says the Japs have gained a great victory and that the Russian lines are withdrawing slowly northward, having suffered heavy losses. The battle continues and despatches are strictly censored.

## KUROPATKIN REPORTS.

St. Petersburg, October 14.—The full text of Gen. Kuropatkin's report, which is dated October 13, and addressed to the Emperor, is as follows: "Last night and throughout the day, the Manchurian army was engaged in a fierce fight. The Japanese concentrated a great force against our positions on centre and right wing. We carried the fight from advanced positions, and it became necessary to support these advance guards from the main position. The right wing held its advance position, and only at nightfall, under my orders, retired to the principal positions. In the centre the troops were forced to retire from the advanced to the main position about 2 p. m. According to reports and to my own observations, the fighting was most desperate."

## RUSSIANS DEFEATED.

Tokio, October 14.—The report of to-day's operations says: A line from Manchuria to Manchuria has been reached. There a body of the enemy possessing guns was enveloped by us and thrown into great confusion, while another portion of the enemy's forces appears to have fled northward also in great confusion.

## ARMY OPERATIONS.

Headquarters of the Japanese army, October 15.—The right column of the right army is now attacking the enemy at Chaohsienlin. The centre of the same army occupied the surrounding heights of the Lianhu and Maoh mountains. The left column is now attacking the enemy's force on the height north of Shingai. The attack movement of the right army, owing to difficulties, is not proceeding as desired.

The right column, central army, commenced its attack movement at 10 o'clock in the morning against a height north of Huchia-hiatzu. At 2 o'clock the enemy's artillery began retreating. The right column of the left army occupied Panchip on the morning of the 13th. Its advance force has already reached Panchip. This column has been reinforced from the supports now attacking a division of Russians in the rear of Hsuehshuan. Several batteries of Russian artillery posted at Chienhuangchiten made a stubborn resistance and part of our supports attacked them with artillery. The attack is proceeding satisfactorily. The pursuing force of the centre column of the left army occupied Liensachiatzu and is now pursuing the enemy. The right wing of the left column is now attacking the enemy at Hunglinpo.

## POLLARD BROS.

### BRICK ESTABLISHMENT

On the flats between Edmonton and Strathcona closed down after a successful season

Pollard Bros. brick yard on the flats between Edmonton and Strathcona, has closed down after a very successful season. Their brick plant is a very complete and up to date one, the method of brick manufacture being the stiff mud process. The clay is hauled in carts from the pit to an elevated dump. A trackway leads from the hopper to this dump, and as the small cars are filled they are hauled to the hopper. After going through the hopper the clay passes out on to an automatic cutting table. The brick are then lifted on to cars, each car holding 640 brick. From here the brick passes into the drying kiln.

The drying building is 20 feet long by 10 feet wide. Five tracks lead to it from the cutting table, and in this way five cars enter the dryer simultaneously. The next five cars push these the length of themselves forward and the next five cars the same. In this way when the car has made the trip through the drier, it comes out the other end ready for the kiln. The drier, which is built of brick, is heated to a very high temperature, and a large flue carries off the steam from the drying brick. When the drier is full it contains seventy cars, holding 44,800 brick. From the drier the cars are run on tracks to the burning kiln, and in this way the brick is only handled twice. Hauled from their loads at the kiln the cars are again run back to the cutting table to make another trip.

Power and heat is furnished by a 35 horse power engine and a sundree horse power boiler.

The quality manufactured is the common building brick of which 2,200,000 were turned out this year. The market for the brick has been at Edmonton principally, although quantities have been sold in Strathcona or shipped to Calgary.

Pollard Bros. are now engaged in building a large permanent brick kiln in which to burn the brick. A large kiln of brick just ready to be burnt at present.

### GAME REGULATIONS

At the session of the Territorial Legislative Assembly, just concluded, the game ordinance was amended so that deer shooting in Eastern Assiniboia may now begin on the 15th of November and continue to the evening of the 29th of the same month. The season for geese and swans now coincides with that for ducks, and the use of automatic shot guns is prohibited.

### EDMONTON RIFLE ASSN.

In spite of the threatening weather some fifteen members of the Assn. turned out for an afternoon practice.

The clearing skies and consequent changes of light shortly afterward caused a drop in the scores, although defective ammunition is also possibly accountable for this, several good shots missing the target occasionally at 500 and 600 yards, making their scoring very erratic, bulls-eyes alternating with goose eggs, especially at the 600 yards.

The following were the best scores made:

	200	500	600	Total
S. S. Brown,	28	26	29	83
W. S. Weeks,	30	26	20	76
F. H. Kito,	28	26	18	72
W. S. Robertson,	31	19	19	69
A. Cameron,	25	21	23	68

Practice will be kept up as long as the weather permits.

### Washing Proves

There's only one real test of unshrinkable underwear—the wash tub. Two or three hard rubbings will soon shorten the usual so-called "unshrinkable" underwear. That's why the directions for washing are so elaborate—why there are so many "do's" and "don'ts."

### Stanfield's Unshrinkable Underwear

is absolutely unshrinkable. The wash tub proves it. Your dealer guarantees this to you—and we back up that guarantee to him. We know it won't shrink because it can't shrink. Our special process takes out the shrink before the garments are cut. Even then, each one is tested by washing.

—The golf Club will have a bonfire to-night and a grand rally on the links.

—Rev. C. H. Huestis will conduct both services in the College avenue Methodist to-morrow. In the morning Mr. Huestis begins a series of services "How to make the Bible More Real."

—John Walters is having a large residence erected on the flats near his sawmill. It is frame, two storeys, attic and cellar. 20 by 30 feet with a 14 by 16 two story kitchen. It has been neatly painted, and will be lighted with electricity.

—The Alumni Association held a successful social evening in Haurston's Hall last night. A large number of the graduates of the university were present. A good musical programme and interesting speaker.

—The Buchanan Stock Company presented "An eye on hubby" at the Opera House last night. The hall was fairly well filled, and the audience kept in roars of laughter. Mr. Robert Buchanan, as the henpecked husband, and E. H. Buchanan as Judge Young were thoroughly appreciated, and took difficult parts very well. Miss Harland as Rosa took her part well. The other characters were up to the mark. The company conclude their week's engagement in Edmonton this evening. They give a matinee this afternoon at 2:30 o'clock.

—Plaintiff: Mr. R. Orr suffered a painful accident on Monday last while out shooting at Hastings lake with Messrs. G. F. Downes, W. Hall, and W. H. Stephens. It appears that Mr. Orr was pulling a gun out of a canoe when it unexpectedly exploded, the discharge entering his right hand, and part into the crevice of his right arm. Mr. Stephens brought the injured man to town as soon as possible for surgical attendance, and he was taken to the public hospital. We understand that the doctors hope to save the injured members, but they will be more or less crippled.

—Plaintiff: Judge Scott gave judgment on Friday last in the suit of J. J. Duggan and others against the C. P. R. for the killing of forty-seven horses on July 18, 1932 by a train three miles south of Wetaskiwin. The judgment awards Mr. Duggan \$60 each for 27 horses, his part of the loss, and Mr. Eccleson, and others \$70.00 each for 17 horses. The charge was for wilful neglect of the train crew to get the bunch of horses charged into off the track. The case was tried at Wetaskiwin in February last. Messrs. McDonald and Greenback appeared for the plaintiffs, and Messrs. Loughhead and Bennett for the C. P. R.

—J. McK. Dickson has returned to Edmonton from a trip to the Old Country. While away he spent considerable time among the linen manufacturers of the cities of England and Scotland. Mr. Dickson has not by any means given up the idea of establishing a linen mill at Edmonton. He has the site secured, the only drawback being money stringency in Great Britain at the present time. The Old Country firms are conservative about starting branch industries in Canada as long as the money market is tight as it is at present. The attention of the manufacturers as well as the agriculturists of the Old Country is turned toward Western Canada and particularly toward Edmonton and district. A large British immigration is expected to seek our shores next spring.

I USE a Cuban filler in my Pharaoh Cigar. So do some other manufacturers, but there's a difference—not all Cuban filler is good filler. I make special yearly trips to Havana, so that I can buy the choicest leaves for Pharaoh filler.

These are grown in the Manicargua district, in the Province of Santa Clara—the locality par excellence for fine tobacco.

The warm, moist atmosphere and marvellously rich soil of this locality fit it peculiarly to grow tobacco of the quality kind—delicate leaves, clear and flawless.

## TRADE CONDITIONS

### AND THE EASTERN MARKETS

Dullness in grain movement owing to the Western crop being late in going down.

#### Bulletin Special Despatch.

Toronto, October 15.—Montreal reports to Bradstreet say: The sudden opening of the campaign immediately preceding the federal general elections has had some influence on trade here, there being a slight easing off in the inflow of orders to wholesale trade generally, which is placed to this cause. But despite this the condition of trade is increased. Activity of water navigation is natural. There is some dullness in the grain movement. The western crop is late in coming down but increased exports in many lines has to a certain extent compensated for this. The values of manufactures is generally steady. There is some complaint from the woolen industry regarding the English preferential tariff. In hardware there is a steady demand for all kinds of seasonable goods and good shipments are being sent westward. Collections are reported normally good.

## PACIFIC CABLE CONFERENCE

### Bulletin Special Despatch.

Ottawa, October 15.—The conference which was to have taken place in London, England, on the Pacific cable has been postponed on account of the Canadian elections. Sir William Mackenzie was to represent Canada, and Sir Sanford Fleming New Zealand.

## TRADE IS GOOD

### Bulletin Special Despatch.

Toronto, October 15.—According to Bradstreet's report no disquieting influences have arisen to mar the satisfactory outlook for trade. A key to the wholesale situation is found in the continued activity of the railroads, and navigation companies, who are rushing large shipments.

## ORDERING STEEL RAILS

## Mineral lands to be Opened up

Nelson, B.C., October 12.—Colonel Jas. McNaughton, railway promoter and builder and lawyer, of New York, who was here Sunday and Monday, has under consideration the construction of a line from Grand Forks up the north fork of the Kettle river for a distance of 50 miles. This proposed line has been under consideration for a considerable time, and it is claimed that there are some very extensive copper-gold lodes along the line, over which the road would have to be constructed. Some of these deposits are claimed to be more extensive than those of the Granby mines at Phoenix.

These properties would furnish a large tonnage. Col. McNaughton has had an agent in the boundary looking over the ground to be traversed by the proposed line for some time, and the agent was to meet him at Marcus, Washington, and report to him on the question of the cost of the line and the probability of its being a paying venture. While he was in this city, a prominent local man discussed the question of the construction of the proposed road with him, and they went over the ground to a considerable extent. The local man said that there were a good many mines along the route it was proposed to take.

"There are no mines but a large number of very good prospects," quickly replied the Colonel. At the same time he stated that if it could be demonstrated to him and

## COMPLETE CALM

### PREVAILING IN RUSSIA

The great bulk of the people are very loyal and have confidence in Ruling Powers.

### Bulletin Special Despatch.

Paris, October 15.—Mr. McCormick, the American ambassador at St. Petersburg left for New York on the Hamburg American Line steamer Deutschland, to-day. Referring to general conditions in Russia he said to the Associated Press: "It is difficult for anyone not being in Russia to realize the complete calm prevailing. The bulk of the people are doubly loyal to the Emperor and government. They have implicit confidence that the ruling powers will take steps necessary to bring this war to a successful close."

## CARTWRIGHT STARTS TO-DAY

### Bulletin Special Despatch.

Ottawa, October 14.—Sir Richard Cartwright started for Winnipeg to-day, but the private car on which he was travelling had to be left at Carleton Place on account of a hot box. Cartwright returned here and will start for the West to-morrow. The car will be repaired in the meantime.

Unanimous Resolutions of Confidence in Mr. Oliver. Meetings well attended

On Tuesday evening a meeting to discuss the questions of the day was held in Warden school house, Stony Plain. Mr. Washburn, acted as chairman. The hall was crowded, and Mr. Oliver's speech was listened to with the closest attention. An opportunity was given any person to speak on behalf of Mr. Secord, but none were on hand. The meeting passed an unanimous vote of confidence in Mr. Oliver.

Wednesday evening a meeting had been called to be held in the Stony Plain Centre school house, at which Mr. Oliver was to be present. Owing to his acceptance of the invitation of the Conservative committee of Edmonton to meet Mr. Roblin the same evening, he was unable to be present. But according to an amended announcement the meeting was addressed by Rev. A. Hagar in German and in English. Mr. Secord was represented by Mr. Daly, of Spruce Grove. J. A. McPherson and Rev. E. Eberhart, also addressed the meeting on behalf of Mr. Oliver's candidature. The meeting was a most successful one.

Last evening, Thursday, a meeting was held in Willey's Hall, Spruce Grove. Mr. Bristow, sr., occupied the chair. The hall was crowded. Mr. Oliver addressed the meeting. An opportunity was given Mr. Daly, of Spruce Grove, and A. E. Voyet, of Edmonton, to deliver addresses. The

## THE TEACHERS CONVENTION CONCLUDED

The eighth annual convention of the Northern Alberta Teachers' Association concluded its sessions in Strathcona yesterday. The convention was a most successful one, judged from every standpoint. The attendance was large and the papers and lessons particularly interesting and instructive.

Thursday evening a delightful at home was given the teachers in the Strathcona school.

Yesterday's session was opened by a paper on Calisthenics, by A. S. Hutcheon. Then followed a business meeting at which the election of officers for the ensuing year took place. T. J. Dwyer was elected president.

During the afternoon's session W. H. Thompson gave an address on the value of conventions. Inspector Perret spoke on Composition.

A full report of the proceedings will appear in a later issue of the Bulletin.
